

# BSME | Accreditation

BRITISH SCHOOLS IN THE MIDDLE EAST

# BSME accreditation is underpinned by the following principles:

1. Accreditation must be carried out by one of the five external inspectorates approved by the Department for Education (DfE) and monitored by Ofsted.
2. The purpose of inspection is school improvement; the accreditation process and framework/s must reflect this.
3. We will collaborate with other member organisations who share our philosophy of excellence to the benefit of our members.

<b>Option D:</b> Other membership organisation accreditation + external validation	5

## Option A: BSO

British Schools Overseas (BSOs) are schools that have been inspected under the DfE-endorsed framework which is quality assured by Ofsted. BSO is the only framework approved by the DfE.

BSO schools:

- may market their school as a “BSO school” and use/display the BSO logo
- are listed on the DfE website, as are their inspection reports
- can hire and induct Newly Qualified Teachers from the United Kingdom
- can work with graduate teachers, who do not have a teaching qualification, to help them qualify for Qualified Teacher Status (QTS) through the Assessment Only route
- are eligible to attend the annual BSO conference

Following the changes to the BSO Framework in September 2017, the decision to undertake a BSO inspection rests with the school. If you would like to book a BSO inspection, please contact the [DfE approved inspectorate](#) of your choice.

If your school is BSO accredited, please [click here](#). We will send you the ‘BSME Accredited Member’ logo immediately.

## Option B: BSOi

BSME supports the engagement of schools with multiple, reputable membership organisations that share our philosophy of excellence and contribute to school improvement processes. Following the changes to the BSO Framework in September 2017, IAPS and HMC elected to accept the BSOi model for accreditation purposes. Therefore, BSME will accept BSOi undertaken for the purposes of IAPS or HMC accreditation.

For a school to pass a BSOi inspection, they must meet all the BSO standards that the host country laws allow. The school itself may not choose to opt out of a standard. Only the inspection agency can decide that, and that decision must be based on a close scrutiny of the host country’s law.

A successful BSOi inspection does not afford schools the benefits of a BSO. However, the Department of Education now publishes on [gov.uk](http://gov.uk) a list of British Schools Overseas that have met all the BSO standards, except for those precluded by the laws of their host country. The list can be found at: <https://www.gov.uk/government/publications/british-schools-overseas-inspection-reports-for-non-accredited-schools>

If you would like to book a BSO inspection, please contact the [DfE approved inspectorate](#) of your choice.

## Option C: Approved local framework + external validation

This option reflects BSME's focus on collaboration with Ministries of Education (MoE) that offer robust school evaluation frameworks and share BSME's standards of high quality education. Where BSME Principals are in agreement that a local MoE Framework meets these requirements, BSME will have these frameworks "tested" by a DfE inspectorate to confirm its rigour and comparability to frameworks like the BSO framework.

The UAE Inspection Framework is one such robust framework. Therefore, to satisfy the accreditation principle of external validation, BSME schools in the UAE will be required to undertake the [Penta International Framework: Standards and Criteria for evaluating the extent to which a school can sensibly be referred to as being 'British'](#). This framework was successfully piloted in 5 BSME schools in Dubai in 2017 – 2018, with positive feedback from all schools about the framework and the inspection process.

Please note: Should KHDA and ADEK choose the BSOi framework as a test of a school's Britishness, BSME will accept this as accreditation for membership (see Option B).

## Option D: Other membership organisation accreditation + external validation

BSME's collaboration with membership organisations, like CIS and COBIS, that offer robust school evaluation frameworks and share BSME's standards of what constitutes high quality education, comes to the fore in Option D.

To ensure that BSME's accreditation principle of external validation is met, we require schools who already hold a CIS or COBIS Patron's Accreditation (not Compliance), to undertake the [Penta International Framework: Standards and Criteria for evaluating the extent to which a school can sensibly be referred to as being 'British'](#). This framework was successfully piloted in 5 BSME schools in Dubai in 2017 – 2018, with positive feedback from all schools about the framework and the inspection process.

For schools holding a CIS accreditation, the purpose is to evaluate the element of 'Britishness', whilst for COBIS, it is to meet the external accreditation principle.
