Description

Intuitive Education Consultants (IEC) is a leading, independent consultancy specialising in establishing and managing successful international schools within the Middle East over the last 19 years. Our team of experienced academic and business consultants, and educationalists provides strategic advice across all phases of education. We are experts in establishing new schools, school improvement and market positioning. We also advise on policy and procedures, leadership development, preparation for inspection and the use of ICT solutions to enhance education. We have a proven track record in:

- * School program and project management to open new schools .
- * The development and implementation of new school marketing strategies.
- * School governance and ownership, and business and financial management .
- * Selection and implementation of accredited curricula .
- * Recruitment of experienced and skilled school staff .
- * Implementation of ICT solutions .
- * Property and facilities planning, development and operations .
- * Development and implementation of school improvement plans to achieve measurable outcomes .

Our approach is collaborative, expert and rigorous. Together we can help your school set standards of excellence and fulfill the highest expectations for your students and staff within a happy, caring and supportive environment.
